6. If there is a physical limitation which affects your handwriting, please explain:

**Consent and Release Form**

Research has established that personality is the single most important factor in determining one's compatibility to and happiness in a particular job or career. Studies have also determined that an analysis of handwriting is a viable, non-discriminatory procedure in understanding an individual's personality for such purposes. The results can be invaluable in identifying: hidden talents or potential, interests and motivations, and can be utilized in career development, self-improvement and in team-building activities.

The analysis results will be used in conjunction with other data, tests, observations and job-related information to facilitate human resource decisions. If you choose not to participate, you will not be denied employment opportunities on the basis of your refusal.

By signing above, I hereby release this company, and Handwriting Research Corporation from any liability based upon their findings or recommendations.
